### Cummins Fuel Injectors | Diesel Parts Direct

No, all injectors cannot be used in a 12v Cummins engine. As these engines have a simple and practical structure as well as function, they do not need any complex accessories. The injector for these engines needs to have valves that go with 0.010" intake clearance valve lash. Moreover, it has to be able to provide enough fuel for 160-215 HP.

When choosing injector or nozzle size, you'll want to keep your overall power goal in mind, and for that 800whp target, you'll need about 80 percent more fuel than stock, and a BD-Power 180hp injector set will be just the ticket, since they flow 93% more fuel than stock, which wraps up stage three. This is what I would consider to be the ...
