dei 520 battery backup - 2001 chevy silverado, viper 5901 and remote start currently installing...Hello. i have the 520t brain backup and the install instructions tell you to ground the module, hook up to 12v constant positive fused and then it tells you to connect the GREY positive output to the bra

dei 520 battery backup - the12volt.com

The DEI 520T battery back up is Good you have to know how it works I have installed over 200 of them in the past year with all car alarms code-Alarm and VIPER the best alarms to use is the DEI VIPER alarms as there is no feedback on the remote start wires like code-Alarms the only thing I don't like is DEI recommend only the alarm unit itself only on the Gray wire of the 520t this unit will ...

Directed 520T (dei-520t) 12 Volt Backup Battery and Sensor

The three window systems will be referred to in this manual as type A, B, or C. To determine which type of system you have, turn the ignition on, check the power window wires at the switch with a meter to see what polarity they rest at. If they rest at (-) ground, you have a type A system. This is the most common system.

Due to the complexity of this system, installation of this product must only be performed by an authorized DEI dealer. When properly installed, this system can start the vehicle via a command signal from the remote control transmitter. Therefore, never operate the system in an area that does not have adequate ventilation. The fol-

Installation Guide

This 520T Back-up Battery Works excellent and it is not complicated to install it or add it to your alarm system, the only one thing that made me to uninstall it, was because I use My truck just a few days in a month and the rest of the time as it is parked in the Garage, this back-up Battery keeps draining your Car's Battery so in about 15 days if you do not turn on your car, expect a low or ...
