With the inlet on the right side, that will mean the pull starter pulls toward the tractor. I have seen electric start kits for the Honda GX390 (which the 13 hp version uses) and so that would be a good solution if it's a reliable starting system. Anyone have experience with the electric start conversion kit?

Anyone converted a Honda GX390 to Electric Start?
My Honda GX-340 is a recoil start only motor. I know that honda has 1 through 18 amp start systems for this engine. I thought that the basic GX-340 and GX-390 used the same charging components and was wondering if other more plentiful Honda engines such as vertical shaft lawn mowers would have some the components that could be used for my application.
