### references [Computer Science for Education]

With the help of a University Teaching Fellowship and National Science Foundation grants, I developed a new introductory computer science course, targeted especially to students in the College of Arts & Sciences. This course was first offered in Spring 2002, with the help of an extraordinary group of Assistant Coaches.

### Introduction to Computing

The attainment gap in science may not be as well-documented as the gap in English and maths, but it is just as pervasive. Our research has shown that disadvantaged pupils start to fall behind in science in Key Stage 1; the gap only gets wider throughout primary and secondary school and on to A-level.

### Improving Secondary Science | Education Endowment ...

Moreover, this problem is not exclusive for computer science students, since students in other engineering programs must also take programming courses. In this poster, we propose a teaching approach for improving student's performance in a first programming course.
