The V56i Graphite vertical machining center can also be utilized for dry machining of steels and other materials as well. The machine is equipped with core-cooled ballscrews, support bearings and motor mounts, as well as a core-cooled saddle design with Nano slideway to control machine thermal growth, provide sustained accuracy in long cycle- time, complex geometry die / mold work.

### V56i Graphite | Makino

So after scouring my manuals for hours I finally discovered that LS28 AKA LS950 is the air pressure switch. I think its really petty of Makino to not just tell me this was what the code meant. They literally told me I had to pay them \$2500 for that information. I will never own another Makino again.
