The set of six review articles Neurological aspects of tropical disease published in this and subsequent issues of the Journal is an attempt to highlight some of the important neurological diseases in the tropics. We make no apologies for choosing six infectious diseases, as we think that such diseases still represent the major burden of disease in the developing world.

Neuroparasitology and Tropical Neurology

The Handbook of Clinical Neurology (HCN) was originally conceived and edited by Pierre Vinken and George Bruyn as a prestigious, multivolume reference work that would cover all the disorders encountered by clinicians and researchers engaged in neurology and allied fields. The first series of the Handbook (Volumes 1-44) was published between 1968 and 1982 and was followed by a second series ...
