The Logic Book 5th Edition Textbook Solutions | Chegg.com

The 5th edition turns out to be the least questionable of all, I am told both online and in person. The book itself is good, the explanations and examples not always the best -- as it is with some books, but sufficient for understanding the concepts. I believe that the book could be adequately separated as a textbook and an activity book.

The Logic Book 5th (fifth) edition: Merrie Bergmann ...

This book didn't really help me with my symbolic logic course. It's very long winded and doesn't explain things clearly. Also they don't give you answers to their practice problems. They only have some solutions online, if you search 'The logic book solutions' you'll find it. I'd look for another book.

Textbook Solutions and Answers | Chegg.com

Not always very clear on the "logic". This book goes over the basic concepts of 'common sense' and logical thinking and then focuses on proofs via informal tableau, and truth tables. It'd be more helpful if it gave you a talk-through of the proof rather than just writing the answer. This is not a self-teaching book.
