The first step to getting more women involved in the gaming industry is making the environment more tolerable for everyone by providing for workers' basic needs. Most experienced developers don't want a nap zone or an in-office bar to cope with burnout culture — they want work-life balance.

### Why Arent There More Women in the Gaming Industry ...

Lately there has been a great debate going on about why there aren't more women in leadership positions. The arguments range from "It's about performance" to "It's about biology" to "Women just aren't bold enough." All of these arguments hold some legitimacy, but I think they miss a deeper point. (You'll have to keep reading to get to this point.)

### Why Arent There More Women in Leadership Positions ...

Research by the Women in Engineering Society (WES) concludes that women make up just 12.3% of all engineers in the UK, and only one in five of jobs are held by women in the wider engineering sector as a whole. When you read those numbers, it's a bit disheartening and perplexing - why are the numbers still so low? You would hope that in today's world it would be more balanced and yet it ...

### Why aren't more women choosing engineering? - Imagination

Women are severely underrepresented when it comes to CEO and elected positions. It's not surprising, considering that women only control a mere 1 percent of the world's wealth. Some discussions of this claim that the reason comes down to biology, figuring that women aren't bold enough to hold positions of leadership.

### Why aren't there more women in leadership positions?
